

Experience the raw power of classic, ancient Super Nutrition. The outstanding benefits of pollen have been documented through centuries of use.

Our raw, unheated pollen is collected by hardy bees from flowering plants in pristine northwest Canada. (These super bees are able to survive extreme cold, 55° F below zero, in winter.)

Unquestionably, the freshest, cleanest, most alive source of bee pollen we have ever found; it is genuine Super Nutrition from northwest Canada (*not rancid, pesticided, "off-tasting" pollen which can actually be a toxic stress*).
