PREMIER MEDSPA

A NEW CONCEPT IN SPA THERAPY

Clinical Directors:

Dr. Jeannine Brisley, DC
Dr. Harrison Moore, MD

Would you like to achieve your own unlimited health? Can you afford to keep your own health on hold? Join us for your personal health week where we provide quantum-state therapies designed to give you a significant lasting difference in your energy levels, your vitality, and your health. We would like to offer you a totally different concept in a clinically oriented spa experience.

The Premier Rejuvenation Program is designed to help you achieve your own limitless healing potential. You will receive a comprehensive QRA™ examination which analyzes your specific individual nutritional deficiencies. Based on this, you will then receive a personalized nutritional program featuring primary-manufactured, quantum-state nutrients.

Our doctors will also analyze the blockages (known as interference fields) in your body's meridian pathways. These hidden disrupters are often at the core of stubborn health symptoms and are quite specific to each individual. Our doctors will recommend a quantum-state program to specifically eliminate as many of these as possible during your stay.

One of the most important things you can do to maximize your personal journey in life is to periodically rejuvenate your body by eliminating every single one of your interference fields.

Our therapies use the purest products available free of toxic tagalongs, synthetic fragrances, or other toxic chemicals that once put on your skin can be absorbed into systemic circulation. Our therapies are designed to meet you wherever you may be in your personal health journey and are targeted to maximize your treatment results.

We think you will enjoy the Premier Rejuvenation Experience which takes place on a campus with highly beneficial, piezoelectric granite pillars and walkways, with long-wave water energetics cascading over travertine stone – all part of an entire micro-environment designed to increase the resonant frequencies in your body's meridian pathways during your spa therapies. You will receive your treatments in our world-class facility that emanates highly cell resonant Vastu energetics to provide a completely supportive and rejuvenating environment. It is essential for you to have these therapies performed in a quantum-state environment without the unseen but energy depleting pesticides inside and out – and without the typical toxic lotions, baths and mud.

Our mission is to truly rejuvenate your body, giving you a quantum leap to better energy levels, vitality, endurance, and even better mental clarity so that you can embrace the most rewarding life with family and friends as well as workplace performance.
