TurboBlend 4500

A Truly Amazing Home Blender

Put The Gourmet Chef's Favorite Blender In Your Home

Now you can have all the blending power the foremost gourmet chefs use in America's finest restaurants. The TurboBlend 4500 is truly an amazing home blender. It's so strong that it can crush a half-gallon of hardest ice in just 3 seconds flat!

Blend At Speeds Up To 218 Miles Per Hour!

With its ultra-fast blending speeds, TurboBlend gives you the smoothest textures in just seconds. Create fabulous creamy smoothies, blended soups, powdered nut desserts, luscious granitas and frozen concoctions. The TurboBlend delivers smooth texture, glossy completeness, or chunky salsa – you choose the texture.

- No color separation
- Just satin sauces, sensationally fresh soups, smoothies and drinks

Blending Power and Performance

The TurboBlend 4500 is a heavy-duty, commercial-quality blender that delivers optimum performance and power. Vegetables and fresh or frozen fruits blend quickly and completely. And so does hard ice that jammed and destroyed other blenders in the past.

Now it's Easy to do it All!

Whole foods can be difficult to blend, but with the TurboBlend, there are never any stringy residues or unblended chunks. The result is delicious blends that are bursting with flavor and whole food nutrition, with no residue fiber or seeds.

Our patented design pulls ingredients into the blades for maximum blending efficiency. Plus, the two-speed motor ensures you get the same consistency and quality regardless of quantity. Blend as little as 4 oz. with the same consistency as a full 64 oz. container.

A Truly Heavy Duty Blender

Superior engineering guarantees each TurboBlend is designed to last for a lifetime. The polycarbonate container is virtually unbreakable and engineered to last. Durable components ensure trustworthy performance and supreme reliability while blending fruits, vegetables, whole grains, ice and more.

Put the Blending Power of a TurboBlend in Your Kitchen Today

When you compare the capabilities, performance and power of the TurboBlend 4500 to ordinary blenders, there really is no comparison. The TurboBlend 4500 is the most powerful blender available. Nothing else comes close! Put a fast, easy-to-use, and powerful blender in your kitchen today.
