

Your New Best Friend in the Kitchen

The Ultimate Chopper

The ultimate easy-to-use kitchen tool
to chop, grate, grind, pulverize and blend

**The Ultimate Chopper,
The Ultimate Time-Saver**

Whip up everything
from quick snacks to complete meals.
1-2-3 pulses is all it takes to chop
onions, grate cheese, mince herbs, grind
coffee, whip shakes, puree frozen foods, or
even crush ice.

Key Benefits

- Compact, safe and easy to use – easily tucks into in any corner of your kitchen counter so it's handy for you to use it every-day!
- Chops, grates, grinds and puree almost any food instantly – for delicious salsas, sauces, nut butters, pestos, drinks and much more!
- Now that's it's so easy to prepare fresh dishes – you'll find yourself eating fresher and healthier food!
- Small size, but heavy duty – 750 watts of power (*something you'd find only on the big guy machines*)
- The special, high efficiency, German stainless steel blade is guaranteed for life!

QUICK SNACKS

EASY TO USE

SAVES TIME

GRATE CHEESE

As seen on TV

Chop

Grate

Mince

Puree

Crush

Grind

Whip

The **Ultimate Chopper™** is a European-designed food processor available for the first time in the U.S. The heavy-duty 750 watts of power in this small machine gives you fast and efficient processing of food and provides the power of machines costing five times as much to grate, chop, grind, puree, dice, and mince almost anything. Creating **delicious new recipes** becomes fun again! Making **tasty meals in record time** will amaze you.

The **Ultimate Chopper** is really four very efficient machines in one – only much easier to use: a Food Processor, a Standing Mixer, a Coffee Grinder and an Ice Cream Maker.

Other machines can take up to twice the space on the kitchen counter, are less powerful, hard to clean and could easily cost five times more, but you you'll get the very best quality for much less – but with all the benefits.

Introducing your new best friend in the kitchen!

Finally, something that has the power of the big guy kitchen machines but that is so easy, convenient and compact that you'll actually use it every day for making so many types of foods and dishes. You can chop onions without tears – *in record time*. You can grate hard Parmesan cheese to tasty perfection – with the flip of a switch.

Enjoy pureeing fresh carrots into preservative-free baby food - *effortlessly*. Mince parsley *instantly*. You'll love making chunky salsa in a flash – or pulverize peanuts into creamy peanut butter.

Making pesto becomes a breeze. You'll love whipping homemade sour cream and tomatoes together for a delicious treat.

One of our favorite treats. One of our favorite treats is grinding our own fresh organic nuts (such as ½ cup cashews) into a powder literally in a few seconds, then adding 2 tbsp of organic fruit preserves for the best tasting snack you've ever had – and loaded with high quality delicious protein (higher quality protein than steak).

The secret of the **Ultimate Chopper**'s ability to grind hard foods (such as nuts, hard cheese or hard vegetables) into fine powder or very small particles is its **750 watts of mega-power** and a blade made to the highest standards of German Stainless Steel, guaranteed not to dull, forever, or the company will replace it *free*.

It will even cut through concrete and still stay sharp enough to turn organic sugar granules into powdered sugar in seconds. And the size, it's perfect!

Keep it out on the counter, never put it away. Because then you'll use it everyday, for quick snacks like salsa, complete meals like lasagna made with fresh tomato sauce and grated cheese, even crush ice for delicious fat-free sorbet or add frozen organic berries and real raw cream for luscious ice cream. And cleanup is a breeze, just a quick rinse, or put it in the dishwasher.

Super Safe

And the **Ultimate Chopper** is safe - it won't start without the protective lid being slid into place. The large power pad underneath it also offers maximum control to stay put on the counter while you're using it.

Four Machines in One!

The **Ultimate Chopper™** is really four very efficient machines in one – only much easier to use: a Food Processor, a Standing Mixer, a Coffee Grinder and an Ice Cream Maker. Other machines can take up to twice the space on the kitchen counter, are less powerful, hard to clean and could easily cost five times more, but you you'll get the very best quality for much less – but with all the benefits.

You'll also get the **Ultimate Recipe Guide** showing you how to make many types of foods and dishes – and giving you many new ideas for delicious recipes!

Frequently Asked Questions

Q: How many ounces of food can the **Ultimate Chopper™** hold?

A: It can hold up to 6 oz. of food at a time.

Q: What specifically can the **Ultimate Chopper™** do?

A: It grates, minces, purifies and blends a variety of different foods.

Q: How many mega watts of power does the **Ultimate Chopper™** use?

A: It produces up to 750 watts output power depending on the food load.

Q: Does the **Ultimate Chopper™** have a safety feature?

A: Yes. The **Ultimate Chopper™** will not start unless the lid is securely fastened by sliding it into place. It is very safe for children to use.

A Tasty Recipe

Strawberry-Nut Treat

Ingredients

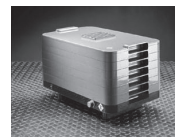

1/2 cup of raw nuts (such as cashews, pecans or almonds)
2 tbsp. **Organic Italian Strawberry Preserves**

- Place raw nuts into **Ultimate Chopper™** and blend for 1-2 seconds until the nuts are a fine powder.
- In a bowl, blend the finely powdered nuts with the strawberry preserves.
- Form into small balls and eat immediately or store in the refrigerator.

Note: Not only is this a delicious treat, but it contains high-quality protein that is easy to digest -- the perfect treat for children and adults alike.
